Reference: Your Inquiry to Cubic Corporation's TH-3700

Dear Mr. Nelson,

Thank you for your interest in Cubic Corporation's TH-3700 series equipment.

Enclosed is the technical literature you requested which describes more fully the advanced capabilities of our recording system.

In addition to the functions described, several other special features are available, such as fully enclosed magazine load (1/2", IBM compatible magnetic tape on standard 10-1/2" reels!), other continuous tape speeds and micrologic interface buffers for a variety of computers.

With our extensive background in special data systems and computer peripheral equipment, Cubic systems is ready to offer assistance in your particular application. Please write or call for additional information or to discuss a specific need.

Very truly yours,

CUBIC CORPORATION
